# AMPERE CONTINUES ITS TECHNOLOGICAL COLLABORATION WITH ACTIA IN EMBEDDED SYSTEMS FOR VEHICLES

**Boulogne-Billancourt** – November 4, 2024 – Ampere announces its continued collaboration with ACTIA in vehicle embedded systems. This new step follows a software expertise sharing agreement signed in the first half of 2024 with ACTIA.

This collaboration foresees the integration, by Ampere, of a dedicated team, developed by ACTIA in Tunisia, with recognized technological expertise. This acquisition allows Ampere to accelerate the development of its software activities around Software Defined Vehicle. This team will be in charge of software development, architecture and diagnosis technology.

## **About Ampere**

Ampere is the first European intelligent EV pure player. Born from Renault Group, Ampere designs, develops, manufactures and markets full electric vehicles featuring cutting-edge software technology, accessible to all. The customer experience, as well as social and environmental impact, are embedded throughout the vehicle development process to ensure they align with the brand's commitment to its customers, the planet and those living on it.
